

CERTIFICATE 2023

Objective

<u>Forum Ethibel</u> is a Belgian not-for-profit organisation and recognised as an expert in **rating**, **independent control** and **certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

<u>RESSOURCES</u> is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

Verification

Centre d'entraide de Jette (CEJ asbl)

CEJ an independent and non-political association that has been helping disadvantaged people and fighting poverty in Jette since 1971. It aims to enable families facing poverty to live in dignity. By approaching a family in its whole, CEJ believes tangible impact on short, medium and long term can be achieved in the fight against poverty. Through – amongst others - language courses, mediation service, homework support for children, food aid and the second-hand shop called ROUF, CEJ encourages people to explore their possibilities and capabilities.

General remarks:

Activities: CEJ asbl relies on individuals, public institutions, organisations and companies to achieve their goals and mission. The screening focused on the second-hand shop: Le ROUF. The organisation collects, sorts, and sells goods in the shop. The sales turnover partially finances their own activities. Some goods are also donated to those in need. The organisation also has an atelier in which goods can be fixed, refurbished and upgraded. The social goal of 'Le Rouf' is to promote socio-professional integration, offer sale at low prices and do it yourself workshops. Societal goals are defined, but annual KPIs could be further defined.

Employees: the workload is hard due to several external factors, like the increased request for support by the community. The necessary support is given to protect the wellbeing. Training on request is provided, yet not all labourers follow an annual (external) training.

Governance: Communication with management is informal but well organised. Many employees are part of the GA.

Documentation and additional information was transparently shared with the auditor.

Result

All requested documents were delivered and questions were answered in full. Forum Ethibel declares that, for the year 2022, the **activities of Centre d'entraide de Jette asbl are compliant** with the SOLID'R Ethical Charter that is based on the **European criteria of social economy**.

Notification

Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
